

Is \$200,000 worth 20 minutes of your time?

Did you know that over your working life you might contribute \$200,000+** into super? Depending on the choices you make, your final retirement payout could be significantly higher. Wouldn't you like to improve your final super balance so you have more money to spend when you retire and take that fantastic holiday you have always promised yourself? That difference may depend on as little as 20 minutes of your attention a year.
