Changing your investment options

This form is for use by members with a Retirement Pension or a Transition to Retirement Pension.

You can change how your super is invested in REI Super at any time. Simply choose the investment options available to you as shown in your Product Disclosure Statement or other documentation provided in relation to investment choice. If you nominate invalid investment options or if you provide any information that is incomplete or ambiguous in the opinion of the Trustee, your request will not be actioned. You will be advised if this is the case.

Forms received by the Fund Administrator by 5.00 pm (Melbourne) on Tuesday will be processed at the next declared unit price, which is generally available on the following Friday. Forms received after 5.00 pm (Melbourne) on Tuesday will be held and processed in the week after the form is received.

If you're unsure of your decisions we recommend that you see a licensed or appropriately authorised financial adviser. Please refer to your Product Disclosure Statement, or other documentation provided, for details about the investment choices and options available under the Fund.

STEP 2: CHOOSE YOUR INVESTMENT OPTIONS

Complete this step if you would like to choose the default investment strategy. Please refer to the PDS for further information.

- I choose to invest my account balance and future pension payments in the age related default investment strategy. I understand that:
- the default investment strategy applies to my account balance and pension payments
 - my account balance will be rebalanced once a year to align my investments with the age related default investment strategy.

If you have completed this Step, please read the privacy statement on page 3 and then sign the form in Step 4. You do not need to complete any information in 'Step 3 - Choose your own investment options'. Your pension payment drawdown strategy will be established in line with the default strategy. Please refer to the PDS for further information.

STEP 3: CHOOSE YOUR INVESTMENT OPTIONS

Complete this step if you would like to choose your own investment options. Do not complete this section if you have selected to invest in the default investment strategy by completing Step 2 above.

You can choose up to 9 investment options for your account balance only, pension payments only or both account balance and pension payments.

Please note that if you are in the age related default investment strategy, and you make a selection under Step 3, you will cease to be in the default investment strategy. This means that an annual rebalance of your account balance will no longer occur. Refer to your Product Disclosure Statement for further details.

Account Balance

You can choose up to 9 investment options in any percentage. Please ensure the total adds to 100% otherwise this form will not be processed and your investment allocations will remain unchanged.

Pension Payments

If you do not complete this section of the form, payments will be drawn in the same proportions as your account balance.

Option 1 - Same Investment Options as Account Balance

Please make payments in the same proportions as my account balance.

Option 2 - Nominate Investment Options for Pension Payments

You can choose to have your pension payments made from one or more of the investment options you have chosen above for your account balance. For example, if your account is invested 80% Growth and 20% Balanced, you could choose to have your payments made from the Balanced option only.

Once there's no longer enough money in your chosen option(s), payments will automatically be deducted from the account balance invested in your other option(s). You'll be notified at the time, and can adjust your investment choice if desired.
